Sep	689	16.63%
Oct	392	9.46%
Nov	0	0.00%
Dec	0	0.00%
Total	4,143	100.00%

Visits Trend - Help Card

Time Interval - A one-year report displays monthly time increments. A one-quarter report displays weekly time increments. A one-month report or a one-week report displays daily time increments. A daily report displays hourly time increments. An hour-long interval marked 12:00, for example, includes all activity between 12:00 and 12:59.

Visits - Number of visits to your site during the specified time interval. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

% - Percentage of visits to your site during the specified time interval compared with all visits to your site during the report period.

--
Periods of less activity can be considered good times for maintenance and content improvement.
